

# DADLAN.AU

A PLACE TO CONNECT

We run monthly LAN events to play and chat together in friendly company, and have a social network for all things Dad.

## WHO WE ARE

DadLAN Australia was established in 2023, bringing together Dads with a common interest in technology, computing, games, and family.

Our mission is to fight loneliness, improve mental health outcomes, and provide dependable social spaces tailored to meet the unique needs of Dads from all walks of life.

We provide an uplifting social network and run monthly in-person events for people to experience connection and community.

## LOCAL COMMUNITY ENGAGEMENT

The DadLAN Events initiative operates via regional chapters, offering in-person gatherings.

These social events aim to combat isolation, foster connections, and establish a friendly Third Space for fathers. Attendees gather regularly to engage in socializing, gaming, and reminiscing about the 'LAN Party' era, among other activities.

## WHAT THEY SAY

"DadLAN has provided a supportive and inclusive space both in person and online that I didn't even realise was missing."

"DadLAN has given me a community again"

## AS SEEN ON

## SOCIAL NETWORK

DadLAN Online program is delivered through digital spaces and provides an uplifting and positive social network. We focus on holistic well-being, community, and family.

The social network provides people an extended community of friends, access to resident experts, and connections to professional networks.
